.....

HOPE TO SEE YOU THERE...FUN & FELLOWSHIP...

***** PRESIDENT'S PREAMBLE *****

As most of you are aware, much of the strength of any organization comes from the hard work of the officers who help run the organization. Maryland TAMS is no exception. Two of our current team of officers are experiencing health problems and on behalf of MD TAMS I want to pass on the club's best wishes for a full and speedy recovery to Jim Boswell, our Secretary, and Bob Ruby, our Treasurer. Both will miss our September Swap Meet but we hope they can make it back soon.

I am glad to note that with this issue of the Journal, you will find the second of our new reference documents. Once again, my thanks goes out to Mill Hajek who has compiled a very useful index to complement the Maryland Merchant Token book. I believe you will find this to be a helpful tool in attributing those new tokens or looking up that token you just saw on E-BAY. Mill is doing more than his share, we need volunteers to document some of our other collecting areas. I will discuss this more at the November meeting.

We have reached the end of another Summer - both the annual MSNA and ANA Conventions are history, the schools are back in session, and we are approaching Fall followed by Winter. Both of these seasons usually see an increase in hobby related activities with an active schedule of local coin shows and more time devoted to indoor activities such as collecting as the weather and season limit our time outside. Hopefully MD TAMS will benefit as some of you take the time to write a short article for the Journal - Will can always use a few additional items. As you go through your collection next time, think about putting a few items aside for "show & tell" or an auction at an upcoming meeting or what collecting category might make a good, new reference document for our current series.

We have an interesting day of activities planned for the BANC Coin Show on 10 October at the Cromwell Bridge Holiday Inn. Beside the regular show, the MSNA is having its annual educational forum at the show. A coin grading expert will be set up in the morning at the show to informally grade coins and he will have a presentation in the afternoon on coin grading. We will have the Maryland Token and Medal Society meeting that same day at 1100 in Room 249. We need volunteers to man the registration desk and club table at the show too. The next Suburban Baltimore/Washington Coin Show is right around the corner on 12-14 November at the Baltimore Convention Center. Come browse the floor and attend our November MD TAMS meeting on Saturday 13 November at 1100. You get the idea - take the time during this Fall/Winter season to get more involved with both your hobby and the Maryland Token & Medal Society.

Edward L. Craig
President MD TAMS

From Your Editor...

Will Mumford...

The ANA Convention is always an exciting adventure...and this years 108th was no exception. This was my 40th year as a member, so I decided to attend and get my 40-year pin in person. I flew to Chicago and stayed in the Days Inn...good rates...only \$59 per night with proper identification. A little way from the Convention Center but no problem as I caught the airport shuttle to the airport and then caught the Hyatt shuttle to the Hyatt-Regency which is across the street from the convention center...less than 30 minutes from my doorstep.

The convention floor is much longer than a football field and packed with over 400 tables with dealers from all walks of numismatics and exonumia. I got there just in time for the annual meeting of the Civil War Token Society. It was nice to see some old friends and meet new CWT nuts. It's a good group, but their speaker's flight got delayed and we had no speaker! I guess I could have volunteered to make a song and dance but I decided to play it cool and just watch...I did make a pitch for articles, as I am their editor as well as yours. We ended up talking about our web site...(<http://home.att.net/~tc38thark/cwts/cwts.htm>)... give it a try...it's pretty neat...

Which brings to mind that it's time for MDTAMS to have their own web site...we could tie it into the MSNA and other MD coin clubs...it is surprising how many people are on line and use the internet for information. As an example...if you are traveling and want to know what kind of numismatic activities are going on in the area...hit the net and if you can find their web page you get more info than you assimilate or really need.

Anyway...back to the ANA show...got to spend a lot of time at the Civil War Token Society table and even sold some books and signed up several new members.

The Numismatic Theatre was as good as usual...several highlights were the great debate on the Western American Assay Bars with Michael Hodder and Theodore Buttrey...it really got hot as Theodore thinks the bars are fakes and Michael thinks they are for real...Buttrey announced that he was going to

consider legal action against Hodder for fabricating a phony. For awhile I thought I was at a wrestling match!

Other good programs were presented by Gerald Kochel on "The Curse of Tecumseh." And Erik Newman on the Dr. Shelton scandal. Most interesting! You should have been there!

On Thursday I got my 40-year pin and had a nice chat with Bob Campbell, the new ANA president. It was nice to see him, as he was one of our young numismatists in the Utah Numismatic Society when I was President...a few years ago...would you believe 26!

Ebay had a large booth with four computer stations...there was always a line to use them...but I managed to check out my auction items each day...make a few bids and win a couple. I finally found a 1698 farthing (UK)... one of the real rare ones. And I Won It!!!! I was such a good customer at the eBay booth that they gave me an eBay tee shirt...Boy...am I ever IN!

The exhibits were great...most interesting, as usual...but nothing from any Marylander...

I did run into Bryce Doxzon off and on and enjoyed meeting lots of new people...Had lots of time boursing ...lots of neat coins and tokens...I even bought a coin or two! But mostly just enjoyed looking...All in all...a great time...It will be Baltimores turn before too long...Maybe next year we can all go to Philadelphia for the year 2000 show....

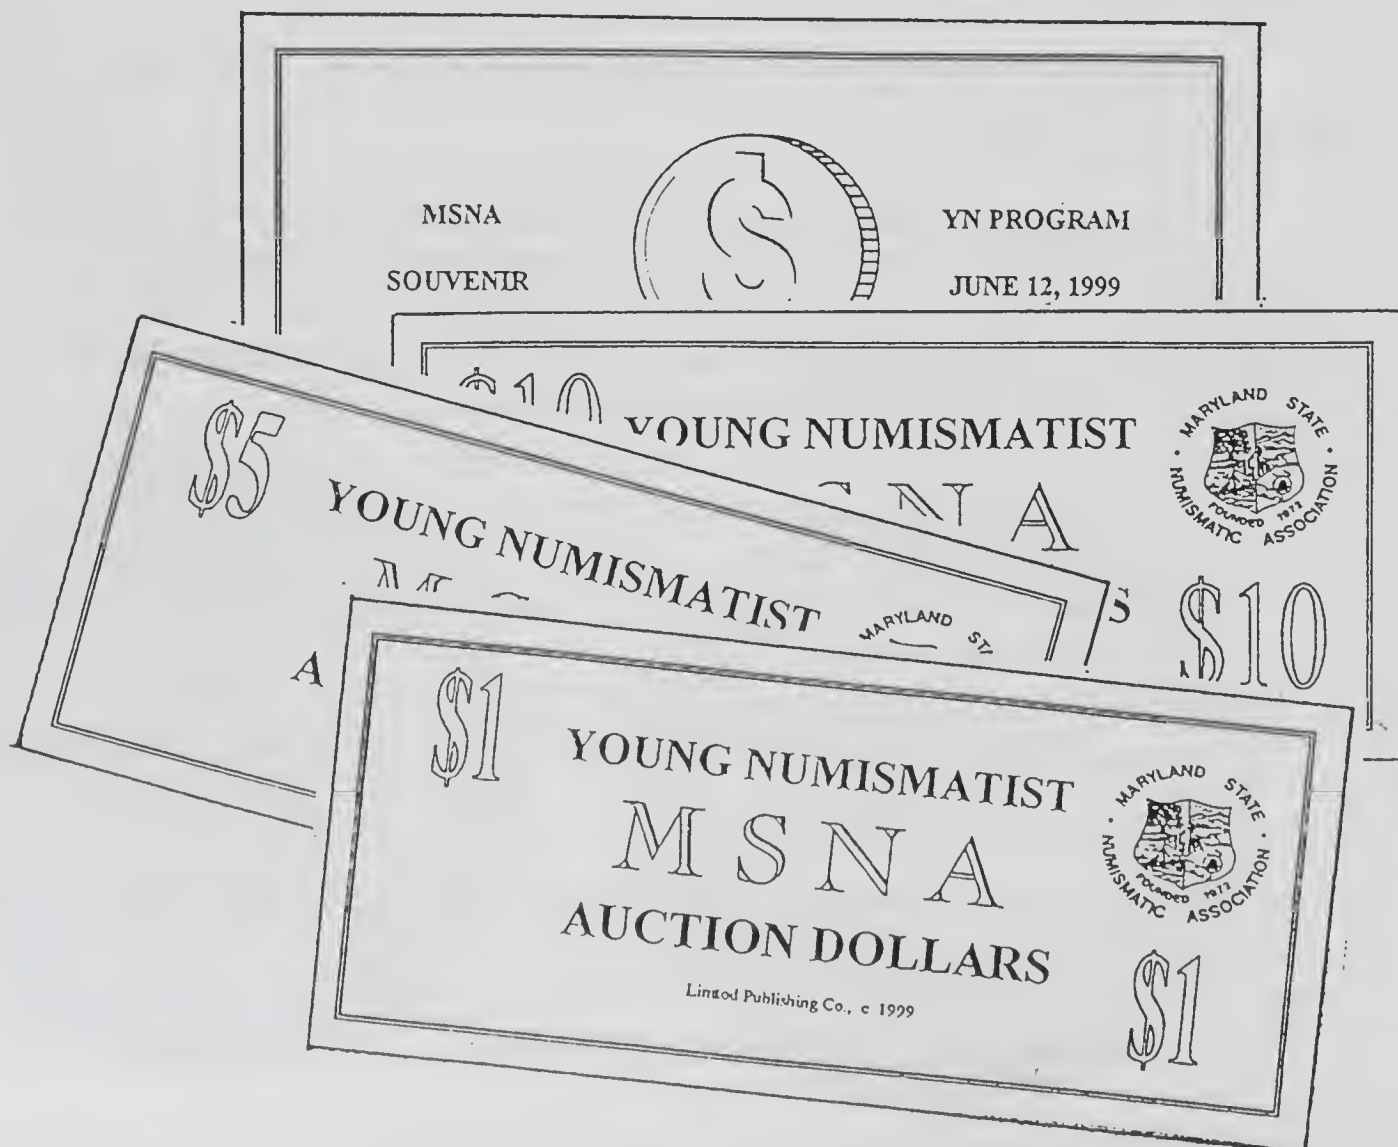

MD TAMS 1999 Annual Meeting Highlights

And Then Some

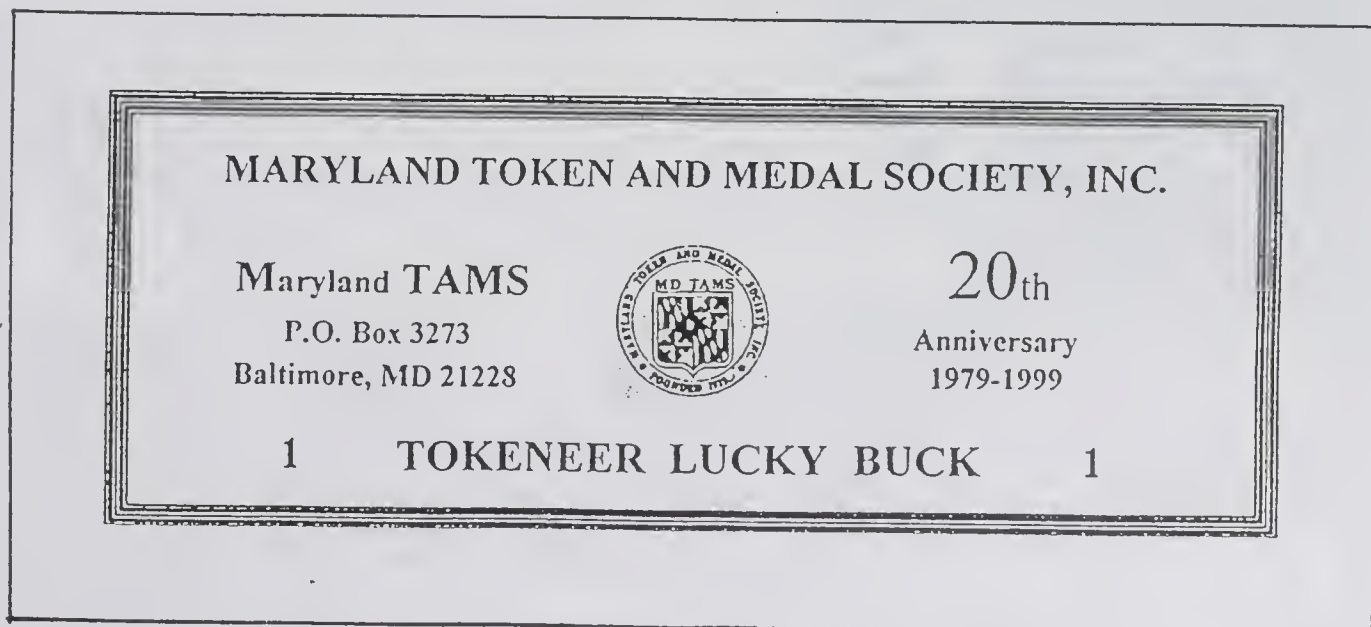

By Millard W. Hajek- LM#1

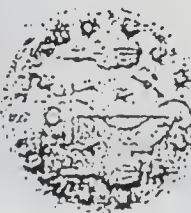

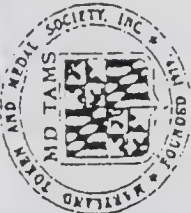

The **Maryland State Numismatic Association (MSNA)** held its' Annual Atlantic Rarities Coin Expo on June 11-13, 1999 at the Baltimore Convention Center. As part of the Associations effort to support clubs and promote numismatics, a **YN Program** was held and various clubs held meetings during the show including the **Maryland Token And Medal Society (MD TAMS)** which held its Annual meeting at the Coin Expo and the **East Coast Contingent of the American Play Money Society (APMS)**.

"Fun Money" was in abundance at all of these meetings starting with the **YN Program** which gave each Young Numismatist a "**Souvenir Dollar**". Also designed were a \$5 and \$10 version but because of a computer malfunction (Can you imagine running your ink cartridge dry at 11:30 P.M. without another handy? Well, I did!) these two denominations were not distributed to the YN's. The \$1 specimen was printed on green paper; the \$5 specimen on yellow paper and the \$10 specimen on pink paper all in black ink, 6 1/8" X 2 5/16" and are illustrated below.

The **MD TAMS** members who attended this Annual Meeting received “**One Frog Skin**” which helped to commemorate the **20th Anniversary** of the Society. These notes, 3 5/8" X 8 1/2" have a green frog in the center wearing a gold crown with a green border on the face of the note. The denomination “**One Frog Skin**” is also in green, the signatures of the President and Treasurer in black and all other printing in a reddish brown. The back of the note also has a green border with all printing in the reddish brown color except the 20th/Anniversary/1979-1999 printed in red and the **MD TAMS** seal which has a yellow ring and the shield in red, white, black and gold, the colors of the Maryland flag. The notes at the meeting were embossed over the president’s signature while all other members received an unembossed specimen in the mail along with their **MD TAMS Journal** as part of the annual-give-away program. Also given to members at the meeting was a **MD TAMSOPOLY Game** created by the Society’s Vice President, Millard Hajek. The game was complete with directions, a board, play money in 1, 5, 10, 12 1/2, 25 50, and 100 denominations, a die and two play money coins. The “**Frog Skin**” notes and **TAMSOPOLY Game** money and board are illustrated below.

Members in attendance also received a pin-back badge with the Society's logo printed in color and a pair of plastic tokens, one white printed with blue ink and one yellow printed with black ink commemorating the 20th anniversary of the founding of MD TAMS. A cake was provided by current President Ed Craig to help celebrate this festive occasion. The badge and plastic token are illustrated below.

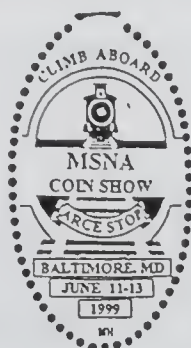

Mill Hajek took top honors in the Literary Awards presentation with his article "Antique Shopping- A Venture Too Good To Be true" and was awarded a gold-colored USS Constellation medal while Ernie Turnes took the runner-up spot for his "Bethlehem Steel Issues Medal" article and received a similar medal but struck in copper. Bryce Doxzon captured the "Millard Hajek Exhibit Award" for his medallic exhibit on Francis Asbury in the MSNA exhibits competition. Bryce received a 40th Anniversary Phillips Restaurant medal for his efforts.

Collectors who attended the East Coast APMS Meeting received a set of 8 "American Play Money Society" ONE BUCK notes printed in black ink on eight different colors of paper. The center features a cartoon likeness of George Washington with a dollar sign on a shield to the left and an eagles head facing left in a circle on the right of the note with the back of the note blank. The notes were serial numbered and measure 2 1/2" X 6". Different serial numbers on the notes were used to award door prizes to the meeting attendees. The door prize chair person, MD TAMS and APMS member Jane Sears designed the notes and handled the awarding of the prizes. Plenty of trading, selling and swapping took place with everyone adding plenty of new "fun money" to their collection.

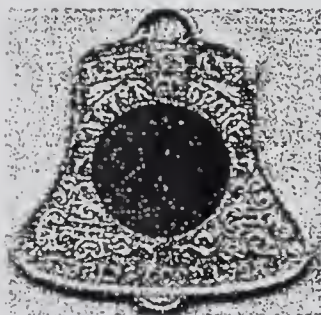

All visitors to MSNA's 27th Annual Convention and Coin Expo received an elongated cent and a wooden nickel to help celebrate the event. Both are illustrated below with the wooden nickel printed with brown ink on the side featuring the Society's logo and purple ink on the other side.

MARYLAND ENCASED COIN CATALOGING PROJECT

Millard W. Hajek LM#1

Recent conversations with **Bill Miller** have resulted in Bill graciously relinquishing the cataloging of "**Encased Coins From Maryland**" for our **MD TAMS Journal** to me. In addition to providing new listings to the Journal, a list has been assembled from all the articles that have appeared on Maryland encased coins in our **MD TAMS Journal**. Efforts are continuing to make the listing as complete as possible so it can be issued as a supplement to be included with a future issue of our **MD TAMS Journal**.

This is a **call to all members** to review their collections and let me know if you have any "**unlisted**" Maryland encased coins that have not previously appeared in those Journal articles. I'm also including in the listing those encased coins that have the same design but contain a different date on the coin. Any maverick encased coins that you have attributed to Maryland should include some reference for the source of attribution. If you are not sure if your encased coin has been listed, please drop me a line and include a rubbing or photo-copy with a full description or give me a call to verify the listing. My address and telephone number is **Millard Hajek, 1404 Harberson Road, Baltimore, MD 21228-1116, telephone 410-744-2631**.

My personal thanks to Bill Miller who picked up the cataloging effort from Joan Taylor and together they have compiled a listing of over 130 Maryland encased coins not including the same design encasements with a different dated coin.

Your input is essential toward having the most completed listing to date so we can have a super "**Encased Coins From Maryland**" reference. So, I'm anxiously awaiting your help on this **MD TAMS** project!

A GUIDE TO COLLECTING SOUTH DAKOTA TOKENS AND EXONUMIA

By Ed & Steve Miedema

Book Review by Curtis H. Judge

A new reference work has been published by Ed & Steve Miedema covering South Dakota tokens and exonumia. The work is an expanded and updated version of the original published in 1993. It comes in a three ring binder in loose-leaf form. The Miedemas have compiled almost 300 pages of information listing 500 different towns, 3750 tokens and pieces of exonumia.

The book is printed via photocopy process from a master example. The reviewer's copy had several pages that were less than clear, leaving information in doubt. For cost reasons, the authors did not include any photographs or rubbings of the tokens or issuing establishments.

Information is split up into 4 chapters. The first two deal with the standard definitions, format, and organization of the catalog. History of the area is also discussed along with background information on issuers and makers.

Chapter three is the actual listing of the tokens. Organization is alphabetically by town, and token issuers name. Full

information is given on each listing including obverse and reverse inscriptions, size, metallic or other composition, counterstamp, and pictorial if any. The authors do not assign catalog numbers or identifiers to each individual piece. A short background history on the issuer when available follows each listing. A rarity or price comparison guide is not included.

The fourth chapter is a maverick index. Known maverick tokens are fully described and then attributed to a specific town. The authors have included 30 pages of listings that are sure to be of help to trade token collectors of all states.

A Guide To Collecting South Dakota Tokens and Exonumia is a worthwhile addition to the library of every collector of that states tokens.

Autographed copies are available directly from the author for \$34.00 plus \$3.00 P&H

Springfield, SD 57062

The Search For Attributing A Maverick

FIRST NAT. BOW. ALLEY / C. L. THOMSON

Millard W. Hajek LM#1

During our MD TAMS meeting this past March 1999, I purchased a maverick token from a fellow collector which proved to be somewhat intriguing when I attempted to attribute it to Maryland.

The token was tentatively attributed to Westminster by the previous owner which gave me a good starting point. Checking the listings of some other Westminster tokens in our **Maryland Merchant Tokens** book, I had the very strong inclination that the previous attribution was correct. Here is the token description of my original purchase listed first along with the description of two other tokens listed in the book which I feel helped me confirm the attribution to Westminster, Maryland.

FIRST NAT. BOW. ALLEY / C. L. THOMSON / PROP.

GOOD FOR / 5c / IN TRADE

Aluminum 24mm Round

C. L. THOMPSON / WESTMINSTER, / MD.

GOOD FOR / 5c / IN TRADE

Aluminum 21mm Round S-975-T5

FIRST NAT'L RESTAURANT / 2 ½ / WESTMINSTER / MD. (all incuse)

Reverse same as Obverse

Brass 24mm Round S975-F5

In the book, Dave Schenkman's research indicates that during the early 1900's Jonas Leopold operated this restaurant, which was located at 17-19 E. Main street. Further check of other Westminster tokens shows that a Mr. Leopold also operated a Pool & Bowling Alley according to the descriptions on the following tokens.

LEOPOLD'S / POOL / CHECK

GOOD FOR / 5 / IN TRADE

Brass 26mm Octagonal S975-L5

LEOPOLD'S / POOL / & / BOWLING ALLEY / WESTMINSTER, MD.

GOOD FOR / 5b / IN TRADE

Aluminum 30mm Scalloped (12) S975-L6

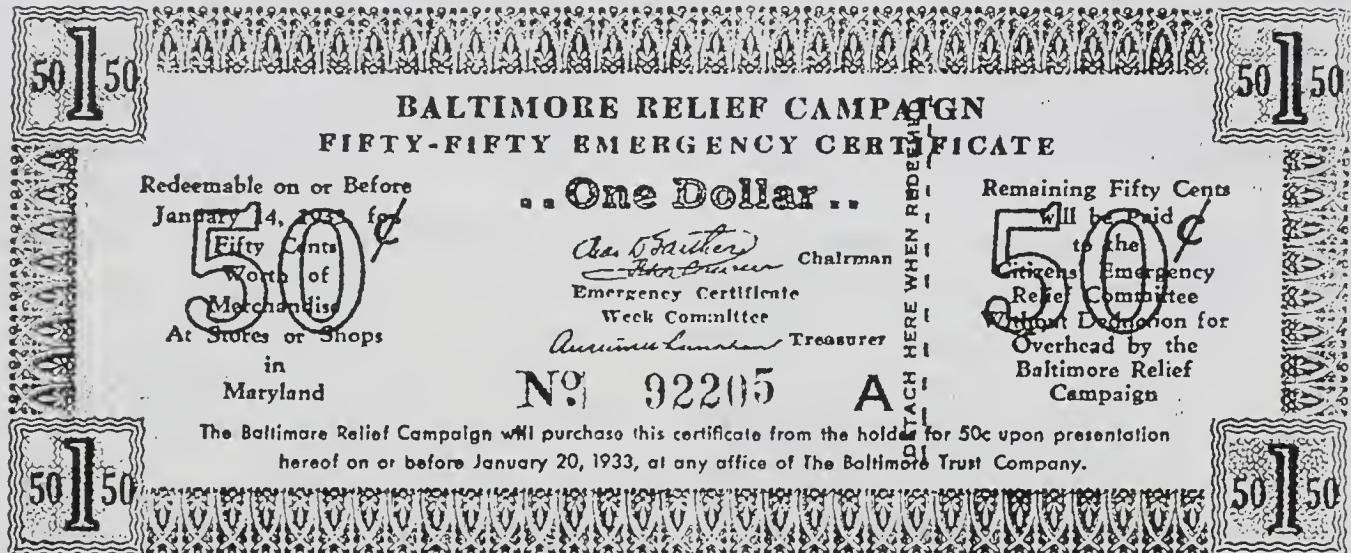

All of the tokens listed above tend to offer strong support for my maverick token to be from Westminster. I wonder which proprietor came first or bought out the other business? The spelling of THOMPSON (token S975-T5) and my unlisted maverick token THOMSON provide an interesting dilemma. Is the difference in spelling a die sinker error or a typo in the book listing? One day this question might be answered. My personal references for businesses in Westminster is zero. Maybe a collector who has a THOMPSON token in his collection can verify the spelling or a check of some Westminster references might offer the answers to my questions?

BALTIMORE RELIEF CAMPAIGN

--Previously Undocumented Depression Scrip--

by Russ Sears

The Great Depression, begun with the stock market crash in October of 1929, caused hardship for Americans in all walks of life. As was not uncommon in previous hard times periods of American history, scrip (not federal issued paper) was used as money.

The Baltimore Relief Campaign used a one dollar note. Part of the certificate could be used to purchase fifty cents worth of merchandise at stores or shops in Maryland. The remaining fifty cents was paid to the Citizens Emergency Relief Committee to assist fellow Baltimoreans. Size is 3 1/8 by 7 inches.

It is interesting to note that the Chairman of the Baltimore Relief Campaign was Charles D. Gaither, Commissioner of Police for the City of Baltimore.

This piece was not listed in the standard catalog of DEPRESSION SCRIP of the UNITED STATES, by Ralph A. Mitchell and Neil Shafer, published in 1984.

CHECKER fer PICKERS...

Will Mumford...

...a continuing story of Anne Arundel County Pickers' checks...

We are now approaching the last chapter of the AA Co. Pickers' checks. *Strawberries, Peas and Beans...the story of Truck Farming in Anne Arundel County* is now at the publishers...but much still needs to be done! More photos are needed and there always seems to be "a little more research" to attend to. The book will include information on the farmers, the pickers, the produce and, of course, the checks...over 400 Anne Arundel farmers used these little tokens producing over 1500 different varieties.

The publisher is shooting for a Christmas publication date, but I feel it will probably be more like January or February. The Ann Arrundell County Historical Society is going to finance the publication and are now offering anyone interested to become a patron...patrons will receive a hard cover book (personally autographed by the author) and will be listed in the book as a patron. Patron costs...\$100.00. all other books will have a soft cover. So here is your big chance to get a hardcover copy of the Pickers' Check book and help in the publication of this bit of Maryland and exonomia history.

If you choose to be a patron, please mail your check to the Ann Arrundell County Historical Society, i/c Will Mumford, 987 Sherwood Forest Road, Annapolis, Md 21401. Patron donations must be made before November 1, 1999.

The historical society has also received a new set of aluminum pickers' checks...A.G.M. Abraham G. Meyers...five tokens, all scalloped - 22mm - values: 1/2pk, 1pk, 1bus, 5bus, 10bus. ...rims are beeded. The five token set will be given to the first six (6) patrons from MDTAMS.
